20 NOV. 1942

CHIEF SECRETARY
GOVT. OF MYSORE

for SECRETARY TO THE RESIDENT

Letter from the Deputy Chief Engineer, Southern Army, Poona, No. [illegible] G.S., dated the 6th November 1942.

Ter..

Letter from the Deputy Chief Engineer, [illegible] Army, [illegible], [illegible], dated the [illegible] ...ember 1939.

Tools and Plant for Aerodrome Construction.

I have the honour to state that, in view of the great volume of work in hand on the construction of aerodromes and works for R.A.F. Germany, and the very large volume of such work about to be started, it has been deemed expedient to ascertain and to describe, the resources of the country in respect of tools and plant for such work.

2. Such resources in military hands are of course already known and carefully recorded, but the same information about tools and plant belonging to Government, municipal and public departments, as well as that of contractors is at present not known, so that the planning of future work in terms of such resources cannot be done, nor can adequate provision be made against emergencies.

3. In accordance with the Engineer-in-Chief's instructions and in order to ensure therefore that the utmost use is made of all such tools and plant in the country, it is now specially requested that you will kindly cause to be forwarded to this office, a return of all such tools and plant under your control, with particular reference to the following (including notes on present location and serviceability)

Mixers - steel or diesel - [illegible]	
Concrete mixers	Portable pumps
Stone crushers	Prime movers
Tar " [illegible]	Resurfacing plants
" " sprayers.	Tractors
" " mixers	Traction engines
Road rollers	Portable cranes
Excavating machinery	Water bowsers [illegible]
Air compressors	Drilling rigs.
Rock drills.	

P.T.O.

4. It is particularly emphasised that there is at present no intention to requisition such plant and that no application should be entertained on that account, the desire being the ascertainment of the technical resources of the country, so that this information may be available in case of emergency.

5. Your co-operation in this matter is therefore earnestly sought.

CONTROL OF TOOLS AND PLANT.

Ref: In continuation of D.C.E.S.A.No.21362/210/E.2.S. of 6/11/42.

Sir,

I have the honour to enclose a copy of Government of India Department of Labour Memorandum No.AC 19 dated 11/11/42 for ready reference

2. To enable Chief Engineer Southern Army to draw in future on such plant as may by arrangement be released it is requested that you will kindly cause to be forwarded to this office as expeditiously as possible the comprehensive return asked for in para 3 of the above quoted D.C.E.S.A.letter. The information required is given on the attached proforma and amendments to the return should please be forwarded on the 21st of each month.

3. To ensure that all plant is utilised to the maximum advantage the following measures are considered necessary:-

(a) That the allotment and disposition of plant is arranged in accordance with the priority of work.

(b) That all officers in charge of construction work have a proper realisation of the maximum output of the machines on their charge (additional drivers would be trained to permit plant to be worked for two shifts if necessary).

(c) That a comprehensive repair organisation is set up and care taken that all machinery is efficiently maintained.

(d) That stocks of spares be collected and stored in Repair Depots now, so that defective plant is out of Commission for the minimum of time.

4. It is realised that the distribution of the existing and available resources vide para 3(a) will depend upon the priority of certain essential works under your control and it will be appreciated if you would kindly forward a list of such works in the order of priority stating the machinery required for these works.

5. A report by you on the existing repair organisations and possible means of improving them throughout the province would also be very much appreciated. D.C.E.S.A. is arranging for certain essential spares to be stocked in Engineer Store Parks.

I have the honour to be,
Sir,
Your obedient servant,

WAR SECRETARY'S OFFICE
18 DEC 1942
RECEIVED

Sir,

TOOLS & PLANT FOR AERODROME CONSTRUCTION.

With reference to your letter No.2498-2500/W dated 2-12-42 regarding the above, I have the honour to state as follows.

The tools and plants available in the Municipality merely consist of tools such as mumties, pick-axes, morter pans, buckets, water pots etc., which are all in daily use ~~mmno~~. These articles are purchased afresh each year the stock being just enough for replacements work.

Regarding the articles mentioned in the list given by the Deputy Chief Engineer, Southern Army, Poona those available are noted below.

2. Rollers - Steam Road roller - 8 tons - one. This is out of order as both the tyres are completely

P.T.O.

completely worn out and this is now being repaired in the Mysore Railway Workshop.

2. Diesel road roller - 8 tons. A condemned steam road roller was converted into Diesel roller. It is now under repairs for want of proper piston rings. Orders have been placed for the same and when they are received these will be put into service.

3. Tar boiler with spray - unserviceable - one.

4. Water carts and lorries. There is only one water lorry attached to the Municipality and one water cart which are being daily used for consolidation and for watering roads. The water lorry ~~[illegible]~~ purchased for Rs.3600/- in 1934.

5.	Concrete mixers	--	Nil.
6.	Stone crushers.		"
7.	tar and mixers.		"
8.	road graders.		"
9.	Excavating machinery		"
10.	Air compressors		"
11.	Rock Drills		"

To The Secy to the Hon'ble the Resident Tools and Plant for Aerodrome Construction

Sir, With reference to the correspondence ending with your letter No RF 467-42/81 dated 7th Dec. 42 on the above subject, I am directed to enclose herein the return asked for and to say that amendments, if any, to the return will be sent as desired.

I have the

Chief Secy to Govt.

Tools and plants available in the Mysore Municipality.

***

1. Rollers - Steam Road Roller - 8 tons - one. This is out of order as both the tyres are completely worn out and this is now being repaired in the Mysore Railway Workshop.

2. Diesel road roller - 8 tons. A condemned steam road roller was converted into Diesel roller. It is now under repairs for want of proper piston rings. Orders have been placed for the same and when they are received these will be put into service.

3. Tar boiler with spray - unserviceable - one.

4. Water carts and lorries. There is only one water lorry attached to the Municipality and one water cart which are being daily used for consolidation and for watering roads. The water lorry was purchased for Rs.3,600/- in 1934.

5. Concrete mixers -- nil.
6. Stone crushers -- "
7. Tar and mixers. -- "
8. Road graders. -- "
9. Excavating machinery -- "
10. Air Compressors. -- "
11. Rock Drills. -- "
12. Portable pumps. -- "
13. Prime movers. -- "
14. Generating sets -- "
15. Tractors. -- "
16. Traction Engines. -- "
17. Portable boilers. -- "
18. Boring Rigs. -- "
